Nanda Krishna C

B.Tech Computer Science and Engineering Student (1st Year) — Vellore Institute of Technology (VIT)

nandakrishnac2008@gmail.com | https://github.com/urfairygodmother | Vellore, India

EDUCATION

B.Tech in Computer Science and Engineering

2026 — 2030 (Expected)

Vellore Institute of Technology (VIT), Vellore, Tamil Nadu, India

- Building a solid academic foundation in computational thinking, problem solving, and discrete mathematics.
- Active participant in technical student clubs and developer communities on campus.
- Key Coursework: Problem Solving & Algorithmic Thinking, Calculus & Linear Algebra, Digital Systems & Computer Organization, Structured Programming &

TECHNICAL SKILLS

Core Web Technologies:	JavaScript (ES6+), HTML5 & Semantic Markup, CSS3 & Responsive Design
Version Control & Tooling:	Git, GitHub, Command Line / Terminal
Practices & Concepts:	Clean Code & Formatting, Web Accessibility (a11y), Algorithms & Logic

SELECTED ACADEMIC & TECHNICAL PROJECTS

SproutNotes — Local-First Study Pad

JavaScript, HTML5, CSS3 | 2026

- A lightweight, distraction-free markdown study pad built with vanilla JavaScript, featuring real-time word counting, tag-based filtering, and persistent localSto
- Learnings: Mastered DOM manipulation, Event Listeners, and input debouncing techniques in vanilla JS.

AlgoCanvas — Interactive Sorting Playground

JavaScript, HTML5, CSS Flexbox | 2026

- An interactive algorithm visualizer that breathes life into Bubble, Selection, and Insertion sorts with speed control, step counters, and custom array generato
- Learnings: Understood async/await control flow and setTimeout scheduling for animation sequencing.

Campus EcoTracker — Sustainability Calc

JavaScript, Semantic HTML, Modern CSS | 2026

- A responsive utility web app that computes student commuting, meal choices, and lab electricity usage into an intuitive daily sustainability score.
- Learnings: Implemented multi-step form validation and user input sanitization in pure JavaScript.
